

e.drain fittings

Product Description

Basic Use: e.drain fittings are utilized with EPRO e.drain drainage composite to collect and direct water to other elements of the drainage system.

Composition: e.drain fittings are comprised of high grade polypropylene.

Benefits

- Fittings specially designed to be compatible with the EPRO drainage composite system.
- Versatile fittings allow efficient design of the water drainage system.
- Outlets fit standard 3" and 4" diameter PVC pipe fittings.
- Quick and easy install, hand tightened and joined.

Limitations

- Not effective when constantly submerged

Technical Data

Shelf Life: Indefinite

Specification Writer: Contact EPRO before writing specifications on this product. E.Series system assemblies should be reviewed in order to meet project specific site conditions.

Installation

Application: Please refer to manufacturer's specifications. Installation of e.drain fittings shall occur after the preparation of the substrate and prior to the placement of the waterproofing system.

To make an end cap, fold back the fabric at the end of the drainage composite and expose the plastic core. Cut away several rows of core, leaving the fabric in place. Fold fabric back over core and secure with tape to secure end.

Outlet will accommodate 3" or 4" pipe, outer tabs must be removed for use with 4" pipe.

Availability and Packaging
